Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on Dec. 5, 2007 has been entered.

Examiner's Statement of Reasons for Allowance

The following is an examiner's statement of reasons for allowance: There are a number of reasons for allowance. First, the Applicants' independent claim is drawn to a method for producing a perovskite-type composite oxide of the general formula $ABMO_3$, whereas paragraph no. 0020 in the English translation of JP 11-262,663 is drawn to the production of the structurally different metal oxide of the formula Sr_3NiPtO_6 . Secondly, the Applicants have provided surprising results which show the criticality of the "mixing" limitation set forth in their independent claim 1. The Applicants have submitted a 312 Declaration signed on Apr. 13, 2007 which showed a surprisingly higher rate of solid solution for the composition prepared according to the method of Applicants' claim 1 (which included the claimed "mixing" limitation) as compared to a comparative composition that was prepared according to a similar method but lacked the claimed "mixing" step and rather added an aqueous solution drop-wise to another solution in a round-bottomed flask to form a viscous, brown precipitate on hydrolysis: please note

"Example 1"; "Comparative Example 1" and Table 4 in the 312 Declaration signed on Apr. 13, 2007. Lastly, the Applicants have provided another 132 Declaration signed on Oct. 19, 2007 which shows the unexpectedly superior quality of the Applicants' composition to form a crystal structure as compared to the composition of the Example set forth in paragraph no.s 0019 and 0020 set forth in the English translation of JP 11-262,663.

In view of the different chemical structure and the unexpected results shown in the 312 Declarations, the Applicants' pending claims have been allowed.

Any comments considered necessary by the Applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy C. Vanoy whose telephone number is 571-272-8158. The examiner can normally be reached on Mon-Fri 8-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stanley Silverman, can be reached on 571-272-1358. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
